Dear Pipi

I want you to stay well. I want to see you. I want to get a visa fast.

To see you, I need a visa. I have requested to enter the UK for two weeks, to stay with Alex, to stay with you, and to see a medical doctor. I will leave at the end of two weeks and will not do any tourism

My visa application which took 5 months was refused in September 2022. This application, completed yesterday online, is a better one as it is not just to stay with Alex. It is a family visit, and has right of appeal. Alex has an experienced solicitor. I myself plan to get help from a lawyer long distance.

I need you to confirm you are my father, you are wanting me to visit you and are aware I have asked to come 2 weeks in March. I need your passport number and you must write to UKVI (UKBA formerly.)

Please forgive Alex who told me he lied I live in Poland. My visa interview is 7 March. They take two months but I will pay for expedited decision. They said no guarantee of fast reply but even the 7 March date can be preponed

I have stated I will spend £250 on my travel have no tourism and Alex or you or I myself will pay £250 to see a doctor.

Please help with my application which I will expedite. I need only the above underlined

Love and kissed

Moni
