**Hi Mohini Hersom,**

Thank you for your enquiry. Someone from our team will be in touch with you shortly.

Your message was:

My name is mohini Hersom. My date of birth is 28th August 1958. I am living in Dublin. In 2022 I was given permission to remain and refugee status in Ireland. I am extremely unwell at the moment and not getting enough medical attention. I've been staying at the same address for two and a half years I am registered disabled. I have a very nice boyfriend in the UK and he will have me and would like me to visit the UK. My parents live in the UK and in 2022 my mother died I've been refused a visitors we started the UK in 2022 and one more time in 2023 I have a trumped-up criminal conviction called her "harassment without violence" initiated by my sister Viju Wortley. Her husband works in the Atomic Establishment Stephen Wortley my parents have lived in the UK on a wealth retirement visa since 2006 During my 14 years in the UK most of the time starting from 2000 specs was spent with Alex McDowell and he is a wonderful and the loyal friend a deeply miss him and would like to give him a hug. As things keep on changing my father tell this getting worse and he lives alone in a five bedroom house hardly able to walk. He is completed 90 years and doctors of told him that he doesn't have long to live. My father is a bit awkward about my sister and he is a very old and apparently she has the right to decide if I will enter the UK ever and she decided I will never enter the UK I would like to reapply for visa which Alex will pay for if a lawyer consists it to be feasible The criminal conviction which took place in 2013 was trumped up and they did not get appealed rights. I do not have any conviction before that or after that and I never contacted my sister because they have an injunction not to contact her which they plan to keep for life Now I have been into the internet and found in 2013 several individuals in the UK who completed sentence or homicide were given indefinitely to remain in the UK on grounds of being attached to their children While I do not have children I have a very nice man in the UK who will be happy to see me and I also have a physics degree from the UK which is from 1983 In the light of the new situation where my health has deteriorator and my father has come to live I would like a lawyer to explore the possibility of of applying for a visitor's visa If there is a simpler method then doing a judicial review the lawyer must advise and see if he/she can do the application.

**RVS Solicitors**
