I deeply miss you and just in case you monitor this email want a reply from you. I realize since March are not using your mobile or Whatsapp. I am pursuing a complaint against Hants social services as they said they have a social worker who is informed of your condition but will not give information. I am heartbroken and unwell myself scheduled for an operation after fighting for years to get it. Life is a struggle and it is hardly fair I cannot see you. A church has made enquiries about you and they found out you are unwell in the first week of June, I hope you can breathe easily and they are giving oxygen if needed. I hope you stay safe from hypo glycemia and are under super and delicate care. It is silly to email when you are not answering your mobile, but since March have left several messages on your phone at 19 Carston Grove, 0118 941 5032. I hope against hope this email will get to you and that I will see you face to face  
Love and kisses

# Moni
