Hants council kept lying my father was still alive after months of refusing to tell me how he is. I think they were stalling while I said i qll go to the ombudsman as they wanted to give my sister time for the funeral to be over. I dont know if it is. They also lied to the tadley councillor and Mrs Tidbury at 20 Carston Grove either did not get news from my sister or she lied my fathere was alive at my sisters on 4rth August to a ham who knew my father. Hants social care also appeared to have lied to a tadley councillor giving an impression he was alive
